Mr. John H. Dairson
WYBC Radio
Yale University
New Haven, Connecticut

Dear John:

Thank you for returning our questionnaire. In all of the returned questionnaires and letters, we find that the stations want more information as quickly as possible, but the major problem is one of knowing the number of stations we will have in the net, to enable us to budget production costs. This will also affect the number of hours a station will be required to carry. We are paid by the number of stations carrying a particular program, and thus, each station will have to carry a so far undetermined number of hours to cover production, line, and administrative overhead. Therefore, before we are able to give you more information, we must have all of the questionnaires returned.

You noted on the questionnaire that you would be interested in producing network programs. If you have any particular ideas or taped productions, please feel free to send them along to us. I will see that the tapes are returned to your station after our program department has auditioned same. At the moment, we are conducting a nationwide search for quality programming, and any assistance you can give will be appreciated.

Suggestions or comments on CRN will be appreciated.

Cordially,

Steve Fargotstein
